Languages

French
Fluent reading, writing & speaking

English
Reading, writing B2, TOEIC 820 (2017)

Hard Skills

Languages

HTML, CSS, JavaScript, TypeScript, Java, Python

Framework & Libraries

React, React Native, NextJS, Angular, Spring, Django, DRF, Flask

Tools & Process

Git, GitHub, GitLab, NodeJS, GraphQL, Docker, CI/CD, RabbitMQ, Jest, Figma

Databases

MySQL, PostgreSQL, SQLite, Oracle, Hibernate, TypeORM, Prisma

Soft Skills

- Autonomy
- Communication
- Interpersonal skills
- Organization
- Solution-oriented
- Self-learning

Hobbies

Sports

Alpine skiing and freeriding, surfing, hiking, snorkeling, tennis

Musique

Piano, guitar and musical compositions

Vianney ACCART

Full Stack Developer – Software Engineer

PROFESSIONAL EXPERIENCE

Software Engineer, In-Core Systèmes, Chassieu | 2022 – Present

- Created an Extract-Transform-Load (ETL) process in Python handling approximately 2 million records per day. Implemented multi-threaded data extraction from X collectors (MySQL) associated with a machine. Transformed and stored aggregated data in a local SQLite database, and inserted it into a MySQL database for industrial reporting. **Challenges** : included scalability, performance, and data structure.
- Developed a production data traceability and analysis application for Giga Factories in the automotive battery sector, serving Schneider, UKBIC, BMW, among others. Used Angular, Python, Django, and Oracle. Implemented unit and integration tests. **Challenges** : UI & UX, information clarity, and query optimization.
- Created an application that periodically monitors the availability of a system and notifies users in case of unavailability. Developed with React, GraphQL, Apollo Client, Apollo Server, TypeORM, PostgreSQL, Docker, RabbitMQ. Performed unit and integration tests using Jest. Implemented CI/CD with GitHub. Administered and deployed on a VPS.

Network Facilitator, CCI Nord Isère, Villefontaine | 2018 – 2021

- Managed the Enbasdemarue.fr marketplace : provided training to merchants on web practices and SEO, searched for and managed partnerships with institutions, regions, and local authorities, facilitated networking, created a blog using WordPress, and kept up with technological advancements.
- Managed the ADEIR association : organized and facilitated board meetings, general assemblies, and events. Built networks among business leaders ranging from small to large companies.

Department Manager, Decathlon Le Pontet & Bourgoin-Jallieu | 2015 – 2018

- Recruited and managed teams of 4 to 12 employees, oversaw and managed P&L accounts ranging from €1.8M to €3M, conducted market research and implemented commercial promotions, served as the IT reference and trainer for new digital processes in-store.

TRAININGS

Professional Title : Application Designer and Developer
